Now, this article was written with a purpose, and is part of the scheme of that faction of the Democratic party which is doing all in its power to precipitate a collision with the authorities. It was written after consults with some of the leading men who passed through here on their way from the late exceeding at Chicago. But, strange to say, when the crascription comes, the only opposition to it is not the part of Democrats. Even sometimes since their papers demanded a draft, and beraded the Administration for not providing immediately for it. Such a change of front was mearn even, except it be that of the party, after the firing apair fort Samter, when, through respect to the force of an overwhelming /pablic opinion, from ant-corrionist they become supporters of the war. The change of heart was not having, however, and the party returned to its old position after a time.

Naw Hours and Naw Music.—H. T Mer rill & Co., a new muste house at 118 Randolph street, have laid us under obligations for a copy of "Out in this terrible War," another of those charming melodies of which the war is the producing cause. We have examined it somewhat critically, and discover a rest and tonching strains, and instrumental and vocal effects which cannot fail to render it extremely popular. It is simple and pleasing, just that character of song which goes straight to the heart and unlocks there the tenderest emotions. We expect for it an extended sale.
